Wines by the Glass served by Coravin System

The Coravin Wine Preservation System is designed to pour wine without removing the cork, so the wine will always taste like it has just been opened—even weeks later. The Coravin Needle gently passes through corks without displacing cork material. Once the Needle is removed, the cork simply expands back to its normal shape. As wine is extracted through the Needle, it is replaced with pure Argon gas, ensuring oxygen never touches the remaining wine, keeping it as fresh as the day it was bottled.

Sparkling

Az. Agricola Follador Francesco is a winery owns by our family in Italy. It's situated in the Village of Valdobbiadene, in the most important and historical part of the appellation. Here our relatives produce the finest Prosecco di Valdobbiadene DOCG and the traditional 'Col Fondo' wine that we really love.
